## Engineering and Technical Job Seekers News Flash

**Complimentary Engineering Webinars**

Dear %First Name%

The Engineering Institute of Technology (EIT) and IDC Technologies are running complimentary 45 minute troubleshooting, tips and tricks webinars designed for engineers, technicians and tradesmen.

Some topics include (more to be announced):

- **Essentials of Arc Flash Protection** - A quick review on what Arc Flash is about followed by a simple toolbox of recommendations for your workplace.
- **10 Tips for Tuning of PID Loops** - A quick toolbox of tips and tricks when tuning process control loops which you can immediately apply to your work.
- **Troubleshooting PLCs** - A toolbox of suggestions to look for in troubleshooting your PLC ranging from CPU, I/O Modules to communications.
- **Troubleshooting Conveyors and Chutes** - Conveyors and chutes are a key part of every company's material transport strategy. A few tips and tricks when troubleshooting problems here.
- **Mechanical Design Concepts for Non-Mechanical Engineers** - This workshop is designed for personnel with a need to understand the use, care, installation, or the economics associated with mechanical machinery.
- **Troubleshooting Tips: Data Communications**
